

JUNIOR TEAM TENNIS MATCH FORMAT

- A player may play 1 singles line and 1 doubles line per match. A player may also play both rounds of doubles. A player MAY NOT play back to back singles in a match.
- A match may be played with as few as three (3) players or as many as six (6) players. For example, if only three (3) players are available (Annie, Bella & Connor), then in Round 1, Annie could play singles, while Bella and Connor play doubles. In Round 2, either Bella or Connor could play singles, and Annie would play doubles with the remaining player.
- There are no restrictions on the max number of players, but a suggested team roster would be 8 players to ensure players get ample playtime. Roster size should be based on player availability.
- Each player is required to play at least 2 different team matches, in order to advance to the JTT State Championship Tournament. (Spring Season Only) Retirements count toward the 2nd match but defaults do not.
- In order to receive a schedule, a team must have 4 players registered in Tennislink by the last day of team registration.
- Defaulting a court or an entire match is highly discouraged. A court fee will be billed for every defaulted court or team default. If you default at the state level your team will not receive their team deposit back.
