

CAPTAIN GUIDELINES

Jr. Team Tennis – 2024

Safe Play Certified

Each team captain shall be in compliance with the USTA Youth Protection Policies and Procedures for USTA Junior Team Tennis. A team captain or assistant captain must be USTA Safe Play approved in order to create a JTT team in TennisLink. To find out more information about Safe Play and to begin the Safe Play approval process, please go to this website: <https://www.usta.com/en/home/safe-play.html>. Becoming Safe Play approved is free and takes approximately 1 hour to complete the online training course in addition to a background check which may take several days.

Team Composition

Teams are non-gender specific and must have the minimum number of players registered prior to the start of the season. There are no restrictions on the maximum number of players. Roster size should be based on player commitment and availability. Players may be added to a registered team after the initial team registration deadline and must be officially registered in TennisLink prior to participating in a match. Any player not listed on the roster in accordance with these rules shall be considered an ineligible player and match results of ineligible players will be considered a default. Please refer to the “JTT Level of Play Guidelines” document for assistance on which skill division to enter (beginner, intermediate, or advanced).

Team Creation

In order to become a captain and create a team in TennisLink, the parent/coach/volunteer must complete the Safe Play training and background check. This process can take up to 2 weeks.
